Sand, broken eye-lashes, cinders, etc., often lodge under the eye-lids, usually the lower lid. When a person complains of some substance in the eye, the inside of the lower eyelid and lower portion of the ball should first be examined. Pull the lid down and at the same time direct the person to look up and from one side to the other. If nothing be discerned there, the patient is then to be directed to look downward. This will expose to view the upper part of the globe. If the object is under the lower lid, pull the lid down and remove by wiping the little nuisance into the corner of the eye with a camel s hair brush, or...
