Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Tarr and McMurry Geographies, Vol. 3: North America and South America The plan of this series of geographies devotes the entire volume to North America, thus providing space for a much fuller treatment than has heretofore been customary. In this treatment the authors have left the beaten track to such an extent that some words of explanation seem called for. Physiographic Basis. - The first four sections are given over to a consideration of certain necessary facts and elementary principles of physiography. While considerable space is devoted to this physiographic basis, an examination of the text will show that this space is used, not so much in introducing new physiographic matter, as in more detailed statements and explanations. Recognizing the inherent difficulty of the subject for young minds, and believing that, as ordinarily presented in the books, the children fail to grasp the significance of the important basal principles, the authors have attacked the problem in a new way. In the first place, they have approached the subject differently. Secondly, their controlling idea has been that only so much physiography should be introduced as is actually demanded to explain man's relation to the earth. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
