Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from *The Peirce Spellers, Vol. 2: A Two-Book Course in Spelling Grades Three to Eight* The making of this series of spellers has been guided by the following simple principles: First, that there is a large number of English words that present no spelling difficulty, words that one cannot well misspell if he tries, and that these words should not be put in a spelling book to be studied, since they need no study, and simply dissipate, rather than concentrate, attention. Examples of such words are top, sit, fat, spring, desk, etc. This class of words has been excluded from these books, though it is the custom to pad spelling books with great numbers of them. Second, that there is another class of words, usually found in large numbers in spelling books, which really belongs only in dictionaries. This class includes words rarely or never used by school children and seldom used even by adults. Many of these words belong only to the vocabularies of specialists, and will be learned as needed in the years after school life. On the rare occasions when they need to be used by the average person, they may be looked up in the dictionary, just as we look up out-of-the-way places in an atlas, rather than try to remember the location of every locality on the globe. As examples of this class of words we take the following from well-known spelling books: congruity, banditti, hauberk, monotheism, mendacity, yucca, crappie, hauteur, hegira, auk, etc. Such words will not be found in these books.
